Finding New Ways to Improve the  
Treatment of Trees and Plants.

## Demonstrated Phosphite Plant Health Benefits

- Controlled release granule provides continuous "*constant loading of P03*" release of phosphite to trees.
- Apply anytime - Spring, Summer, Fall and even in Winter.
- Three months of release by rainfall only.
- Will not leach out.
- Stimulates the trees immune system to manage pathogenic attack.
- Easy to apply.
- No phyto toxicity.
- Proven performance in many crops and applications.

**Use rates of 4oz to 6oz per DBH**
