

Misty Pro

with Odor Reduction Technology

NONIONIC SURFACTANT • HUMECT and Pesticide Odor Reduction Technology

PRINCIPAL FUNCTIONING AGENTS

Nonionic surfactants and humectants90%
Constituents ineffective as a spray adjuvant10%
TOTAL.....100%
All ingredients are exempt from tolerance under 40 CFR 180.

GENERAL INFORMATION

Not for aquatic use

MISTY PRO Surfactant with Odor Reduction Technology enhances the performance of a wide range of pesticides by thoroughly wetting the pest and spreading the active ingredient on the target surface.

MISTY SURFACTANT slows drying time to improve penetration through a waxy or weather hardened cuticle. A defoaming agent in the formulation eases mixing procedures and speeds load time.

Odor Reduction Technology

Misty Pro ORT surfactant system significantly reduces and eliminates offensive pesticide odors of herbicides and various insecticides. **Misty Pro** not only reduces the offensive odor of the pesticide, it also imparts a pleasant fragrance that many identify as being similar to the smell of fresh cut grass. Use rate is determined by the odor that is being masked or to be reduced.

DIRECTIONS FOR USE

Follow the directions on all pesticide labels. If the pesticide does not specify the use of a surfactant follow the directions below. Use only if a surfactant is allowed or not excluded on the label.

MISTY PRO ORT SURFACTANT meets and exceeds requirements by pesticide manufacturers for addition of a non-ionic 90/10 surfactant. If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40° and 90° F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Application	Use Rate (per 100 gallons of spray solution)
Herbicides	1 – 4 pints
Insecticides, acaricides, fungicides	8 oz. – 2 pints
Defoliants, desiccants	1 - 2 pints

Harmful or fatal if swallowed. Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor or going for treatment.

- **If Swallowed:** Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
- **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
- **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

USE RATES

Differences in field conditions can cause some variation in the amount of this product required if being used as an odor elimination aid. The minimum required to give a smooth, uniform coverage usually gives the most effective results.
