

**CONTROL DUO™** is a very effective, easy-to-use, multi-functional adjuvant that provides superior drift mitigation and enhanced pesticide uptake. **CONTROL DUO™** mitigates drift by increasing deposition and retention while significantly lowering evaporation. The premium surfactant system in **CONTROL DUO™** improves penetration of pesticides, nutritionals, and biologicals.

**CONTROL DUO™** contains the research and field proven **CONTROL WM™** polymer blend in combination with a unique and highly effective surfactant system. The unique surfactant system in **CONTROL DUO™** produces less driftable droplets than most surfactants.

Factors that influence the optimum rate of **CONTROL DUO™** include efficacy, spray mixture components, application method, speed, pressure, nozzle type, and proximity to sensitive non-target areas. Use the higher recommended rates when applying at high application speeds and when mixing with chemicals that reduce spray droplet size.

**CONTROL DUO™** may be used in aquatic applications at labeled rates.

Recommended rates of **CONTROL DUO™** are 1 to 6 qt/100 gal for ground and aerial applications. **CONTROL DUO™** is approved for use with dicamba and 2,4-D formulations. Always agitate when adding any product to the spray tank.

# CONTROL DUO™

## PREMIUM DRIFT MITIGATION, DEPOSITION, RETENTION, AND SURFACTANT SYSTEM

### INGREDIENTS:

Nonionic Surfactant Blend, Polymer Blend, and Formulation Aids . . . . . 100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001

**KEEP OUT OF REACH OF CHILDREN**

**Quest Products Corporation**  
**23611 Linwood Road**  
**Linwood, Kansas 66052**  
**Phone: 785-542-2577**

Always use best spray management practices and follow pesticide label directions. **CONTROL DUO™** by itself will not totally eliminate the potential for spray drift.

**WARNING: Harmful if swallowed.**  
**Causes eye irritation.**

### PRECAUTIONARY STATEMENTS:

Do not eat, drink or smoke when using this product. **If swallowed:** Call a POISON CENTER or doctor/physician if you feel unwell. **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do - continue rinsing.

**FIRST AID: Eye contact:** Check for and remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately. **Ingestion:** Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

### STORAGE AND DISPOSAL

Store above 32° F and prevent freezing. Do not reuse empty container. Dispose of container in accordance with federal, state, or local regulations.

**Read Safety Data Sheet before using this product.**

Seller makes no warranty of fitness or merchantability. Buyer agrees that seller's maximum liability shall not exceed the purchase price of this product.
